

Sewer pipe installation under Bellevue Way Southeast begins Thursday 5/10
Lane closure, traffic detours from 9 a.m. – 3 p.m.

Installation of 100 feet of new sewer underneath Bellevue Way Southeast begins at 9 a.m. on Thursday, May 10. The interior southbound lane of Bellevue Way Southeast will close from 9 a.m. – 3 p.m., Monday – Saturday to allow crews to connect the new sewer pipe to an existing manhole. Additionally, northbound access to Bellevue Way Southeast from 113th Avenue Southeast will be prohibited and detoured to 112th Avenue Southeast during these hours.

The work and detours are expected to last 10 -14 days.

What to Expect

- Work activity, heavy machinery, noise and dust from construction at the intersection of Bellevue Way Southeast 113th Avenue Southeast.
- Trucks, construction crews and safety barriers in heavy machinery and material in the interior southbound lane of Bellevue Way Southeast and the eastern shoulder of Bellevue Way Southeast just south of the Sweyolocken Boat Launch access road.
- Interior southbound lane of Bellevue Way Southeast at 113th Avenue Southeast closed, traffic detours and delays on Bellevue Way Southeast., 113th Avenue Southeast and 112th Avenue Southeast from 9 a.m. – 3 p.m., Monday – Saturday.
- Traffic delays on Bellevue Way Southeast., 113th Avenue, Southeast and 112th Avenue Southeast between 9 a.m. – 3 p.m. in May.

Sweyolocken Boat Launch access road re-opens 5/7

Crews have installed the pipe underneath the Sweyolocken Boat Launch access road and are preparing to repave the access road in order to return it to service by the week of Monday, May 7, 2007. King County does not anticipate closing the access road again during the project.

After the access road is reopened, work will continue in the shoulder of Bellevue Way Southeast, immediately to the west of the access road. King County urges park and trail users to use extreme caution when passing through the work area.
